

DECORATIVE LIGHTING SOLUTIONS

Transrail Lighting Ltd is one of the leading Indian engineering, procurement and construction companies with over four decades of experience in providing comprehensive solutions on a turnkey basis globally. Our business is divided into four verticals, namely (i) power transmission and distribution (including substations), (ii) civil construction, (iii) poles and lighting, and (iv) railways. With footprints in 58 Countries, we have large-scale manufacturing facilities in India for Galvanized Lattice Towers, Conductors and Galvanized Polygonal Poles in addition to a well-accredited R&D tower testing facility.

Transrail is a leader in providing LED lighting solutions across diverse sectors, built on years of experience and expertise. With a deep understanding of the evolving "night tourism" trend in India, Transrail delivers comprehensive solutions tailored to enhance the beauty of city skylines and iconic landmarks. Our expert team of designers, engineers, and technicians work collaboratively to customize products that meet the unique needs of each project. As one of the few companies with the capability to offer end-to-end turnkey solutions, from concept to execution, Transrail brings imagination to life through innovative lighting.

Why Transrail?

Transrail is at the forefront of innovative lighting in India, offering a technological marvel in project lighting where creativity, innovation, and unparalleled quality shine.
