

Transrail Lighting Ltd is one of the leading Indian engineering, procurement and construction companies with over four decades of experience in providing comprehensive solutions on a turnkey basis globally. Our business is divided into four verticals, namely (i) power transmission and distribution (including substations), (ii) civil construction, (iii) poles and lighting, and (iv) railways. With footprints in 58 Countries, we have large-scale manufacturing facilities in India for Galvanized Lattice Towers, Conductors and Galvanized Polygonal Poles in addition to a well-accredited R&D tower testing facility.

DECORATIVE POLE

ILLUMINATE YOUR SPACES WITH ELEGANCE AND INNOVATION

At Transrail, we design more than just poles—we craft statements of style and sophistication. Our decorative poles are where artistry meets functionality, turning ordinary landscapes into extraordinary experiences. Whether you're looking to enhance urban environments or create captivating spaces, our collection offers the perfect blend of durability and design, ensuring that every project shines with timeless beauty.
